For example

Dogs Are the Best Pets

I think that dogs are the **best** pets.

Dogs are very loving, and you can teach them lots of tricks. Dogs can also help you stay fit and healthy.

First, dogs are very loyal and loving companions. They are always happy to see you, and they always love spending time with you.

Next, dogs are clever. They are easy to teach. Most other pets can't learn how to do tricks, but you can teach cool tricks to a dog.

Also, your family can take your dog for a walk. This will keep you healthy. Have you ever heard of taking a goldfish for a walk? I don't think so!

These are the reasons why dogs are the best pets. They are loving, smart and fun animals.

Change **best** to **greatest**.

New sentence would be...

You are going on a scavenger hunt in your home! You will be required to find some basic items around your house that have numbers on them. Using those numbers you will need to create a four-digit number.

You can use anything that you find to create your **four-digit** numbers, such as

- Barcodes on items around the house
- Telephone numbers
- Expiry dates on products around the house

In the example above you will see I have chosen the barcode numbers on a packet of Sakata crackers. **Remember we only want 4 digits** so I have only used the first 4 numbers on the barcode

Once you have found or created **at least five 4 digit numbers** you need to then place your numbers in order from smallest to largest.
